- ◆ [Installing Data](#) 1

Installing Data

Place the AnySite data update DVD in the media drive.

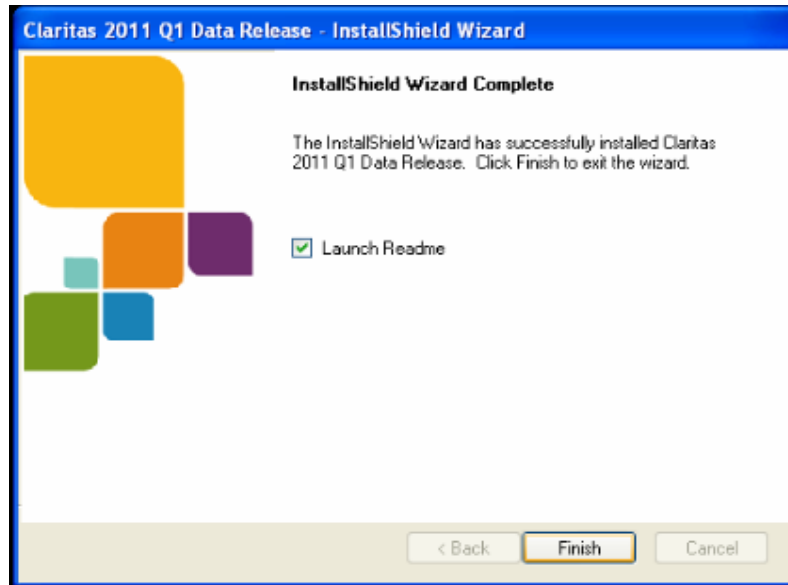

1. The installation starts automatically, click **Run setup.exe** to start the installation process.

(If the installation does not start automatically, click **Run** from the Microsoft Start menu, and click the **Browse** button. Go to the media drive and select **setup.exe**.)

2. When the Welcome screen appears, click **Next** to continue.
3. The license Agreement screen displays.
Carefully read the License Agreement. Select "*I accept the terms in the license agreement*" to accept the terms of the agreement.
Click **Next** to continue the installation process.

4. The Ready to Install the Program screen displays.
Click **Install** to begin the Installation process.
5. After the files install, the Installation Complete Screen displays.
The Launch *ReadMe* box is checked. Leaving this checked displays the *ReadMe* file. **Click** in the box to remove the check and skip this step.
Click **Finish** to close the data update Installation Wizard.

6. The *Readme* file displays. **Click** the Close button in top right-hand corner to close the display.
